Sir:

Applicants respectfully request the Examiner consider the following preliminary amendment in the above identified application.

IN THE SPECIFICATION:

Please replace the following paragraphs as indicated.

The paragraph beginning on page 1, at line 9:

The present invention relates to low intensity level luminaires, particularly for use marking the location of doorbell buttons, driveway edges and the like, and more particularly relating to a battery powered luminaire providing a useful battery life of one or more years.

The paragraph beginning on page 1, at line 15:

Since the introduction of wireless doorbells, customers have requested a lighted button feature to assist in locating the doorbell button in the dark. Lacking connection to line electrical power, providing such a feature has proven impractical to achieve with even the smallest incandescent sources. The power demands of incandescent bulbs exhaust the capacity of typical
